

SH-1

Acoustic Guitar Soundhole pickup
Maple Wood Housing
Single Coil Magnetic Pickup
1/4 Plug with 10Ft cable
Warm Sound with no feedback

HUMBUCKER PICKUP

The SH-2H sound hole pickup. This Great-looking maple pickup will look fantastic on your guitar. More importantly, it sounds great. The SH-2H will passively amplify your sound without anything to detract from it. The Humbucker design gives a detract from it. The Humbucker design gives a bright clean tone that is resistant to feedback. The SH-2H fits any acoustic guitar with a sound hole diameter of 3.85 to 4.10 inches. The proprietary shaped magnetic field insures great string balance with most acoustic string sets.

SH-2H

SH-2(JE)

ELECA wooden transducer, sensor and configure housed in the maple shell, with built in advanced light shielding wire production, easy to carry and install, timbre balanced high sensitivity characteristics, can be used for the guitar and other instrument shaking voice class instrument, applicable to personal practice, small parties, small art shou etc.
